TABLE OF CONTENTS

No. 1. January 1944

An oscillographic study of olfactory system of cats. CLEMENT A. FOX, W. A. MCKINLEY AND H. W. MAGOUN 1

The effect of calcium on the neuromuscular junction. STEPHEN W. KUFFLER 17

Effects of dorsal root section on choline esterase concentration in spinal cord of cats. D. NACHMANSOHN AND E. C. HOFF 27

Functional organization of frontal pole in monkey and chimpanzee. MARGARET A. KENNARD AND WARREN S. MCCULLOCH 37

The distribution of acetylcholine in brains of rats of different ages. JOHN H. WELSH AND JANE E. HYDE 41

Functional organization of the medial aspect of the primate cortex. PERCIVAL BAILEY, GERHARDT VON BONIN, EDWARD W. DAVIS, HUGH W. GAROL, WARREN S. MCCULLOCH, EPHRAIM ROSEMAN AND ANIBAL SILVEIRA 51

Optic nerve regeneration with return of vision in anurans. R. W. SPERRY 57

The peripheral unit for pain. G. H. BISHOP 71

No. 2. March 1944

Interaction of neighboring fibres in myelinated nerve. AMEDEO S. MARRAZZI 83

The electrical activity of regenerating nerves in the cat. CHARLES M. BERRY, HARRY GRUNDFEST AND JOSEPH C. HINSEY 103

Effect of temperature on the oxygen consumption of brain tissue. JOHN FIELD 2d, FREDERICK A. FUHRMAN AND ARTHUR W. MARTIN 117

Experimental analysis of the functions of the basal ganglia in monkeys and chimpanzees. MARGARET A. KENNARD 127

No. 3. May 1944

The hind brain and the early development of behavior in frogs. GING-HSI WANG AND TSE-WEI LU 151

Reflex inhibition of intestinal motility mediated through decentralized prevertebral ganglia. ALBERT KUNTZ AND GENO SACCOMANNO 163

Experimental hypogeusia from Horsley-Clarke lesions of the thalamus in *Macaca mulatta*. H. D. PATTON, T. C. RUCH AND A. E. WALKER 171

The structural identity of the pain spot in human skin. G. H. BISHOP 185

Physiological neuronography of some cortico-subcortical connections in the chimpanzee. H. W. GAROL AND W. S. MCCULLOCH 199

No. 4. July 1944

An analysis of the variability of spinal reflex thresholds. J. S. DENSLOW 207

Parasympathetic regulation of high potential in the electroencephalogram. CHESTER W. DARROW, JOHN R. GREEN, EDWARD W. DAVIS AND HUGH W. GAROL 217

The electrophonic response to phase reversal. PETER KELLAWAY 227

The afferent path of the pupillodilator reflex in the cat. A. J. HARRIS, Pfc., M. C., R. HODES AND H. W. MAGOUN 231

Changes of weight and neuromuscular transmission in muscles of immobilized joints. P. THOMSEN AND J. V. LUCO 245

No. 5. September 1944

Relation of cerebral cortex to spasticity and flaccidity. W. KEASLEY WELCH AND MARGARET A. KENNARD 255

Acute and chronic parietal lobe ablations in monkeys. TALMAGE L. PEELE 269

Inhibition of activity in single auditory nerve fibers by acoustic stimulation. ROBERT GALAMBOS, with the collaboration of Hallowell Davis 287

The supernormal period in the recovery cycle of motoneurons. H. E. HOFF AND R. S. GRANT 305

No. 6. November 1944

The Nobel Prize in Physiology and Medicine for 1944 325

A note on the two components of the dorsal root potential. F. T. DUN AND T. P. FENG 327

Receiving areas of the tactile, auditory and visual systems in the cerebellum. RAY S. SNIDER AND AVERILL STOWELL 331

Spreading depression of activity in the cerebral cortex. ARISTIDES A. P. LEÃO 359

Pial circulation and spreading depression of activity in the cerebral cortex. ARISTIDES A. P. LEÃO 391

Influence of conditioning nerve stimuli on relayed volleys evoked from spinal cord. Periodic facilitation and inhibition. CARL GUSTAF BERNHARD 397

Sustained facilitation and post-inhibitory rebound of relayed volleys in the spinal cord. CARL GUSTAF BERNHARD 409

Midbrain auditory mechanisms in cats. H. W. ADES 415

Paralysis with hypotonicity and hyperreflexia subsequent to section of basis pedunculi in monkeys. B. W. CANNON, H. W. MAGOUN AND W. F. WINDLE 425
